

**SECTION 706
CONCRETE AND PLASTIC PIPE**

706.08 PLASTIC PIPE – Revise the text to read as follows:

Furnish non-perforated plastic pipe conforming to the sizes and type specified below.

1. Drain Pipe: Furnish High Density Polyethylene (HDPE) pipe conforming to AASHTO M 294 Type S soil tight joint connection, full circular with its smooth interior wall and corrugated exterior wall. Corrugation shall be annular, N-12 and HDPE pipe shall be rated for H20 traffic loads.
2. Drain Pipe fittings: Fittings shall be as recommended by the HDPE pipe manufacturer for use with HDPE corrugated drain pipe.
