

SECTION 203 REMOVAL OF STRUCTURES AND OBSTRUCTIONS

203.01 **DESCRIPTION** – Revised the text of this subsection to read as follows:

This work consists of removing and salvaging traffic control signs, street name signs, route signs, mile post signs, junction signs, and other similar type signs found within the project limits. This work also includes removing and disposing of fences, structures, pavements, culverts, utilities, curbs, plant boxes, and other obstructions within the project limits indicated on the plans.

Add the following paragraphs to this subsection:

The locations of utility lines and appurtenances shown on plans were derived from field surveys, record drawings, construction drawings, and schematic drawings. The locations of all underground utilities are approximate only. Notify all concerned utility agencies of planned clearing, excavation or other construction operations which may damage or adversely affect the permits or clearances from them prior to undertaking construction activities.

The exact locations of IT&E communication cables and lines are unknown. Although approximate locations are implied by cable markers and service boxes, it is the responsibility of the Contractor to coordinate with respective communication agency to field verify prior to undertaking excavation work.

In the event that utility lines are to be relocated or when utility lines that are presently in service not indicated in the plan are uncovered during excavation operations, notify the CO in ample time for necessary measures to be taken to prevent interruption of the service during the relocation or removal of the existing lines.

Inform and coordinate with the following agencies prior to execution of contract's scope of work.

Water System: Commonwealth Utilities Corporation

Telephone: IT&E

Cable TV System: Docomo / Marianas Cable Vision

Tourist/Location Signs: Marianas Visitors Authority
